

CompTIA A+

90 Clock Hours

To better help working adults and Active Duty Military meet their educational goals, InovaTech College of Business & Technology offers a full range of certificate programs and courses geared toward helping members of the workforce stay current in today's demanding job market. Certificate programs offer working adults a convenient, flexible way to earn credentials for career advancement. Certificates are awarded upon successful completion of the required coursework. All course certificates are issued and mailed by the Registrar's Office.

WHAT IS THE COMPTIA A+ COURSE?

The CompTIA A+ course prepares the student to pass both the A+ Essentials examination and the A+ PC Tech examination. The intent of the A+ Certification is to certify individuals in a body of knowledge that is identified and accepted as the baseline or foundation for entry-level PC technician employment. The Essentials examination measures essential competencies for a PC hardware service technician. The examinee must demonstrate basic knowledge of installing, configuring, upgrading, troubleshooting, and repairing microcomputer systems to industry standards. The PC Tech examination measures essential operating system competencies for microcomputer hardware service. At the end of the course, the student must have basic knowledge of Command Line Prompt, Windows 9x and Windows 2000 for installing, configuring, upgrading, troubleshooting, and repairing microcomputer systems.

HOW LONG IS THE COURSE?

The CompTIA A+ course is split into two individual sections to reflect the requirements of the certification exams required by the industry: CompTIA A+ Essentials needed for the 220-601 certification exam and CompTIA A+ PC Tech needed for the 220-602 certification exam.

Each section is equal to 45 clock hours can be attended as follows:

- for 1 week, Mon-Fri, from 8:30am to 5:30pm
