

MS 2830
DESIGNING SECURITY FOR MICROSOFT NETWORKS

45 Clock Hours

To better help working adults and Active Duty Military meet their educational goals, InovaTech College of Business & Technology offers a full range of certificate programs and courses geared toward helping members of the workforce stay current in today's demanding job market. Certificate programs offer working adults a convenient, flexible way to earn credentials for career advancement. Certificates are awarded upon successful completion of the required coursework. All course certificates are issued and mailed by the Registrar's Office.

WHAT IS THE MS2830 COURSE?

The MS2830 course provides students with the knowledge and skills to design a secure network infrastructure. Topics include assembling the design team, modeling threats, and analyzing security risks in order to meet business requirements for securing computers in a networked environment. The course encourages decision-making skills through an interactive tool that simulates real-life scenarios that the target audience may encounter. You are given the task of collecting the information and sorting through the details to resolve the given security requirement.

HOW LONG IS THE COURSE?

The course is 45 clock hours long and it can be attended as follows:

- for 1 week, Mon-Fri, from 8:30am to 5:30pm
- OR
- for 2 weeks, Mon-Fri, from 5:30pm to 10:00pm
